

ADOPT A BARN CAT

We may have the perfect cat for your barn, outbuilding or stable!

Help save a life! Provide a special cat with a safe and comfortable place to live, food, water, veterinary care and he or she will return the favor by keeping the rodent population down.

Barn placement is often the best option for feral, semi-feral, or other cats that cannot live as house pets for many different reasons. RCHS adopts only specific cats to barn homes. Cats that would do well in a household are not considered for barn placement.

RCHS Barn Cats Have Been:

- Spayed or Neutered
- Vaccinated for rabies and distemper
- Tested negative for FeLV
- Treated with basic dewormer and parasite prevention
